**Re: Annual Report of Spectrum Five, LLC  
S2667, S2668**

Dear Ms. Dortch:

Spectrum Five, LLC, by counsel, submits the attached annual report, as provided in paragraph 46 of *Spectrum Five, LLC*, 21 FCC Rcd 14023 (I.B. 2006), which authorized operation of a direct broadcast satellite system at 114.5° W.L.

Please contact this office if there are any questions.

Respectfully submitted,

Todd M. Stansbury  
*Counsel for Spectrum Five, LLC*

cc: Columbia Operations Center

### Annual Report of Spectrum Five, LLC

Pursuant to 47 C.F.R. §25.210(l), Spectrum Five, LLC ("Spectrum Five") hereby files its annual report for 2007.

On November 29, 2006, the Commission granted Spectrum Five's Petition for Declaratory Ruling for authority to access the United States from two direct broadcast satellites at the 114.5° W.L. orbital location.<sup>1</sup> Spectrum Five's first milestone requirement, to complete contracting for construction of the satellite stations, is due November 29, 2007. Spectrum Five has made significant progress toward this goal.

Spectrum Five has engaged in numerous face-to-face discussions with multiple satellite manufactures. Also, in early June 2007, Spectrum Five distributed to each of four manufacturers a detailed Request for Proposal ("RFP") for bids to produce, deliver, and maintain Spectrum Five's spacecraft and related system equipment. The RFP requires formal bids to be submitted in August 2007 and for the construction contract to be executed by all parties in October 2007. These deadlines align with Spectrum Five's first milestone requirement, as set forth in Section 47.148 of the Commission's Rules and the *Spectrum Five Order*.
